  - >150 in person and >500 YouTube live audiences

# Symposium

- Two days symposium
  - 26 talks and 32 poster presentations
  - >50 in person and 500 registered participants

# Symposium

- We learn the history of KEK during the symposium.
  - There were many challenges in past 50 years.
  - Those were overcome after many efforts by KEK staffs, users and company people.
  - Then, many good achievements were obtained, so far.
  - Now, we have various great beams in Tsukuba and Tokai.
- I hope young people utilize those beams to achieve great physics and to apply other fields in the future.
- Also, we hear good suggestions for KEK.
  - We will make various effort to achieve great future as considering suggestions.

# Thanks

- All speakers and participants to warm up this symposium
- All KEK staffs and other people to contribute the official ceremony, this symposium and other memorial events
- All KEK users and company people to work together with us for 50 years
- All local community people and other people to understand KEK activity.
- All donators to realize these memorial events.

# Finally

KEK will keep accelerating for Insight through Accelerators in coming 50 years.

# Thank you again
