

ICFA Mini-Workshop on Slow Extraction, 2022

Wednesday, 26 January 2022

Session 4: Spill control, beam tuning (06:00 - 08:20)

-Conveners: David Ondreka

| time | [id] title | presenter |
|-------|--|--------------------|
| 06:00 | [14] Characterising SX spill frequency response | PARI, Michelangelo |
| 06:20 | [15] Spill micro-structure investigations in SIS18: recent results | SINGH, Rahul |
| 06:40 | [16] Spill structures and regulations in J-PARC | MUTO, Ryotaro |
| 07:00 | [17] Using ML in Spill regulation for Mu2e | NARAYANAN, Aakaash |
| 07:20 | [18] Simulations for spill micro-structure optimization | SORGE, Stefan |
| 07:40 | [19] Cycle-to-cycle feedback for tuning spill macro-structure | STEINHAGEN, Ralph |
| 08:00 | [20] RF channelling with barrier buckets at the PS | ARRUTIA, Pablo |
