

AWARD CEREMONY

2023

Female scientist and Young Investigator

TYL-FJPPL and FKPPPL

Laboratoire de Physique des Particules Toshiko Yuasa 2023

第9回 湯浅年子賞 「金賞」

Décerné à : Hiromi Iinuma

TOSHIKO YUASA LABORATORY

2023 YOUNG INVESTIGATOR AWARD

FRANCE-JAPAN PARTICLE PHYSICS

2023 TYL-FJPPL Young Investigator Award

- would have been the **8th year** for the YI award
- the aim of the TYL-FJPPL Young Investigator Award is to highlight and promote the individual work of junior scientists active within the TYL-FJPPL Japanese and French teams.
- the TYL-FJPPL Young Investigator Award will reward up to two PhD students or postdoctoral researchers every year, based on the excellence of their contribution to one of the TYL-FJPPL supported collaborative projects.
- the nominations should include a brief description of the work and particular contribution of the candidate (half page to one page long), a CV and at least one letter of recommendation.
- as part of the award, selected candidates will be invited by the TYL-FJPPL to present their work during an Award Ceremony at the next joint TYL-FJPPL and FKPPL annual workshop.

2022 FKPPL Young Investigator Award

- 2023 would have been FKPPL **6th year** for its YI Award !
- the aim of the FKPPL Young Investigator Award is to highlight and promote the individual work of junior scientists active within the FKPPL Korean and French teams.
- the FKPPL Young Investigator Award will reward one PhD student or postdoctoral researcher every year, based on the excellence of their contribution to one of the FKPPL supported collaborative projects.
- the nominations should include a brief description of the work and particular contribution of the candidate, a CV and two letters of support.
- as part of the award, the selected candidate will be invited by the FKPPL to present his/her work during an Award Ceremony at the next joint FKPPL and TYL-FJPPL annual workshop.

2023 FJPPL Young Investigator Award

1 outstanding candidate

Tristan Fillinger

currently post-doc at IPNS - KEK, Tsukuba, Japan
PhD in 2022 at University of Strasbourg, CNRS

active in the Belle II experiment

For his outstanding contribution to the Belle II data analysis on the decay time dependent CP violating measurements in B decays within the FLAV_05 TYL project

2023 Award Ceremony

CONGRATULATIONS TO

Tristan Filling

おめでとうございます

축하합니다
