

QUPosium2024 Closing Remarks

For QUPosium we aimed to bring leading experts in various fields under the general theme of new approaches to detect quantum fields and exploit quantum sensing technology to spark new synergy ideas and discussions.

Thanks to QUP organizing committee. *Special Thanks* to our QUP staff and Adm. Director Katsuo Tokushuku working tirelessly to run things smoothly.

International Center for
Quantum-field Measurement Systems for
Studies of the Universe and Particles
WPI research center at KEK

This has been an exciting event, very interesting talks with presentations of many novel leading results. Topics ranging from nuclear clocks to sensors in space, quantum computing, Casimir force, etc. Personally, I learned a lot.

→ **But it is your participation that made it successful !**

Thank **YOU** and let's continue discussions and future collaborations !
