

About me

Common event presentation

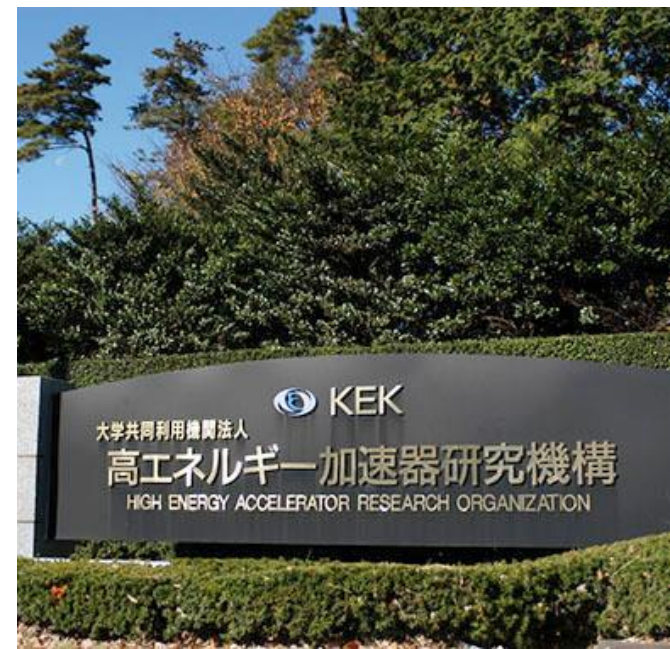

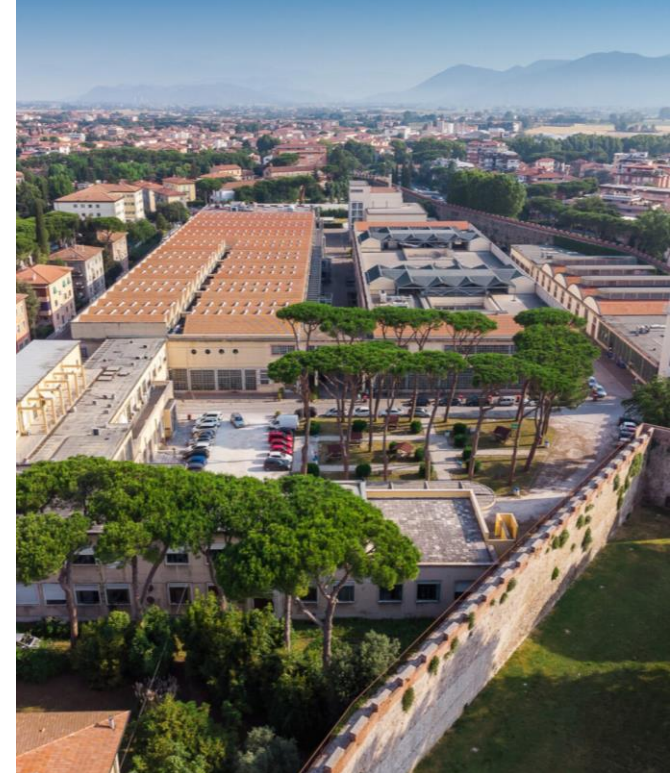

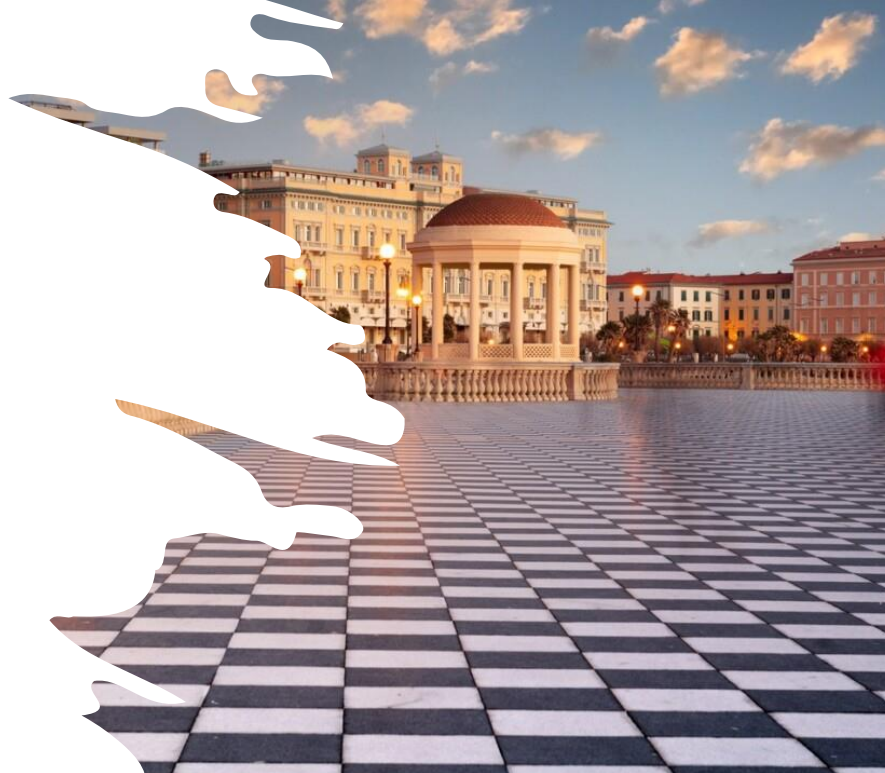

Gaia Domenici

Sokendai Summer School

23 July 2025

Main points

- Who I am
- Where I come from
- My studies
- Why I chose KEKSSP
- What I'm doing here

Who I am

I'm Gaia

I'm 24 years old

I'm a Physics Master student from Italy

Where I come from

Where I come from

UNIVERSITÀ
DI PISA

My studies

- I got my bachelor's degree at the University of Pisa.
- I'm currently studying for my master's degree at the University of Pisa.
- I'm following the theoretical physics curriculum.
- Some of the courses that I've followed are Quantum Field Theory, Fundamental Interactions and General Relativity.

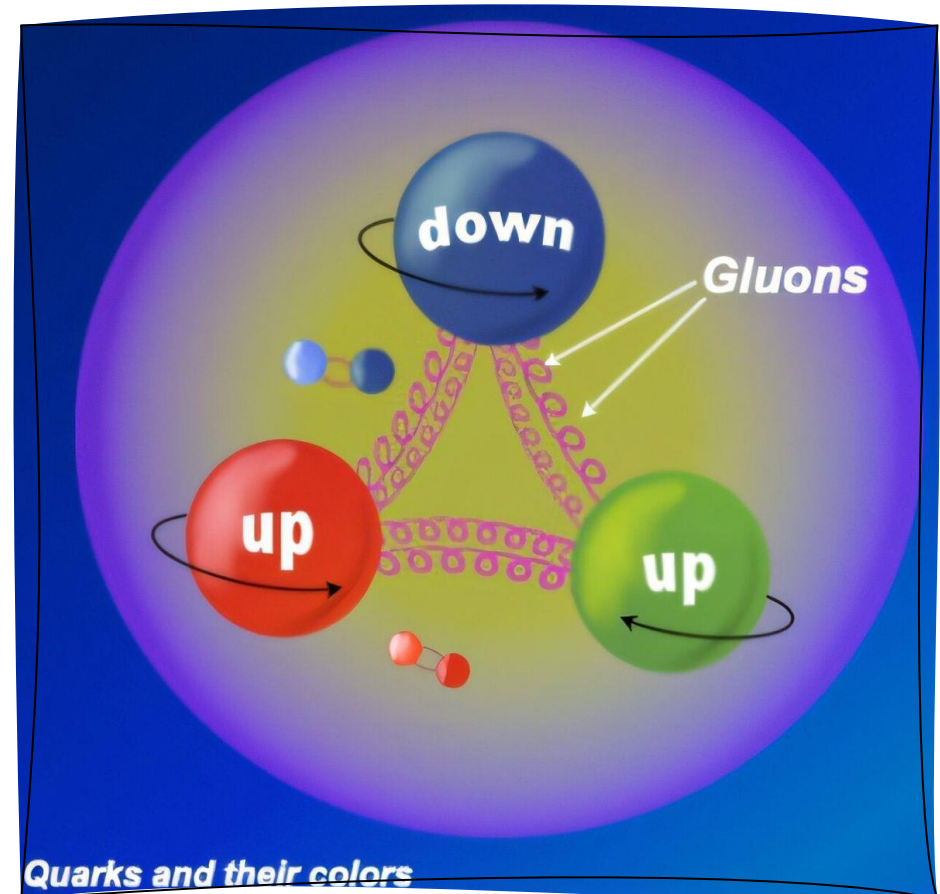

Why I chose KEKSSP

- To explore my interest in high energy physics in a top level research environment.
- I've always been fascinated by Japan: its culture, history and way of life.
- To connect with an international community of students and researchers.

What I'm doing here

- I'm attending the theoretical physics program focused on computational methods in quantum field theory, particularly lattice QCD.
- The theoretical program includes both lectures and practical sessions involving simulations.

A large, irregular pink brushstroke shape that serves as a background for the text. It has a soft, painterly texture with visible brush marks.

**Thank you
for the
attention!**
