

# 8th International Conference on Quarks and Nuclear Physics (QNP2018)

## Wednesday 14 November 2018

### 14A2 Parton Structure - Room 201A (15:50-17:40)

time	[id] title	presenter
15:50	[69] Inclusive isolated photon in pp collisions up to the next leading order with CGC	FUKUSHIMA, Kenji
16:20	[70] Study of parton correlations via double parton scatterings in associated quarkonium production in high energy accelerator experiments	YAMANAKA, Nodoka
16:40	[71] Total hadronic cross sections via the holographic pomeron exchange	WATANABE, Akira
17:00	[72] A test of gauge invariant canonical angular momentum in Landau level problem	KITADONO, Yoshio
17:20	[73] Twist-3 fragmentation contribution to the polarized hyperon production in unpolarized proton-proton collisions	YABE, Kenta
