

8th International Conference on Quarks and Nuclear Physics (QNP2018)

Tuesday 13 November 2018

13A1 Parton Structure - Room 201A (13:30-16:00)

time	[id] title	presenter
13:30	[7] Color fluctuations in nucleons and the EMC effect	STRIKMAN, Mark
14:00	[8] Kaon multiplicities of semi-inclusive DIS and the fragmentation functions	KAO, Chung Wen
14:20	[9] Operator relations for gravitational form factors	TANAKA, Kazuhiro
14:40	[10] Hadron tomography for pion and its gravitational form factors	SONG, Qin-Tao
15:00	[11] Transversity GPDs of the deuteron in a convolution picture	COSYN, Wim
15:20	[12] Gluon Wigner distributions at small x with sub-nucleonic fluctuations	HAGIWARA, Yoshikazu
15:40	[13] Generalized parton distributions of the photon in light-front model	KUMAR, Narinder
