

# KEK Theory Meeting on Particle Physics Phenomenology (KEK-PH2026winter)

## Tuesday, 17 February 2026

parallel session B: Cosmo - meeting room (10:40 - 11:40)

| time  | [id] | title   | presenter                |
|-------|------|---|--------------------------|
| 10:40 | [17] | Thermal precondensation in gauge-fermion theories and its cosmological implications | PASTOR GUTIERREZ, Alvaro |
| 11:00 | [18] | Electromagnetic leptogenesis in an effective field theory                           | TAKADA, Rin              |
| 11:20 | [19] | Screening Effects of Finite-Mass Fermions in Monopole Baryogenesis Scenario         | KATO, Yukito             |
