

KEK Theory Meeting on Particle Physics Phenomenology

(KEK-PH2026winter)

Tuesday, 17 February 2026

parallel session A: DM - Seminar hall (14:50 - 16:10)

time	[id] title	presenter
14:50	[22] Phenomenology of electroweakly interacting spin-1 dark matter with Sommerfeld enhancement	ABE, Tomohiro
15:10	[23] Minimal Dark Matter in the sky: updated Indirect Detection probes	AGHAIE, Mohammad
15:30	[24] Dark matter explanations for the neutrino emission from the Seyfert galaxy NGC 1068	AKITA, Kensuke
15:50	[25] Light neutrinophilic thermal dark matter	AONASHI, Tatsuya
