

KEK Cosmo 2025

Wednesday, 4 March 2026

Session III (15:30 - 17:30)

-Conveners: Kazunori Kohri

time	[id] title	presenter
15:30	[16] Causality and Kramers-Kronig Relations in Gravitational Lensing	SUYAMA, Teruaki
16:30	[17] Toward estimating supermassive Black Hole Binary Distributions via Higher- Order Statistics of the Gravitational Wave Background	HISAMATSU, Hinano
16:50	[18] Resolving individual signals in the presence of stochastic background in future pulsar timing arrays	FURUSAWA, Kazuya
17:10	[19] Testing the standard structure growth with HSC-Y3 cosmic shear data and CMB data: Implications for S8 tension	TERASAWA, Ryo
