**Session Program**

**8–10 Dec 2026**

# QUPosium2026

## *Superconducting quantum devices for dark matter & cosmology*

Epochal Tsukuba International Congress Center, Convention Hall 200
2-20-3, Tsukuba, Ibaraki, Japan, 305-0032

# Thursday 10 December

09:00

## Superconducting quantum devices for dark matter & cosmology

**Session** |
**Location:** Epochal Tsukuba International Congress Center, Convention Hall 200, 2-20-3, Tsukuba, Ibaraki, Japan, 305-0032

09:00–09:30

### GravNet - A Global Network for the Search of High Frequency Gravitational Waves

**Speaker**
Claudio Gatti

09:30–10:00

### Searches for weakly coupled particle interactions at Kamioka and elsewhere

**Speaker**
Maurice Garcia-Sciveres

10:00–10:30

### Superconducting Quantum Detectors for Astronomy and Fundamental Physics Experiments

**Speaker**
Boon Kok Tan

10:30
