

# ISRD2018 : International Symposium on Radiation Detectors and Their Uses

## Friday, 26 January 2018

Scintillator - Kobayashi hall (09:00 - 10:40)

| time  | [id] title   | presenter                |
|-------|--|--------------------------|
| 09:00 | [51] O45: Light output, energy resolution and timing characteristics of Ce <sup>3+</sup> doped scintillators   | CHEWPRADITKUL, Weerapong |
| 09:40 | [52] O46: Growth of organic crystals for neutron detection and their scintillation properties                  | YAMAJI, Akihiro          |
| 10:00 | [53] O47: Development of dual time-over-threshold method for estimation of scintillation decay time and energy | OTA, Ryosuke             |
| 10:20 | [54] O48: Some Properties of Plastic Scintillators to Construct a LET Spectrometer                             | TRAN, Nguyen Thuy Ngan   |
