

ISRD2018 : International Symposium on Radiation Detectors and Their Uses

Tuesday, 23 January 2018

Dosimeter - Kobayashi hall (13:10 - 14:50)

time	[id] title	presenter
13:10	[6] O1: Gamma ray effect on reading alpha particle tracks using fluorescent nuclear track detectors (FNTDs)	HASHIZUME, Takuya
13:30	[7] O2: Applicability of polyimide films for identification of ultra-heavy components, including uranium ions in galactic cosmic ray	KUSUMOTO, Tamon
13:50	[8] O3: Possibility of element mixed with Aluminum Oxide	KOBAYASHI, Ikuo
14:10	[9] O4: Latest advances in fluorescent nuclear track detector technology and instrumentation	AKSELROD, Mark S.
