NCAR Tools to Help Manage HPSS

Monday, 16 October 2017 16:00 (30 minutes)

In this presentation, we'll share details about several tools that NCAR has developed over the years that help us manage HPSS and that may help other sites. The tools include ones for monitoring, tracking tapes and managing the disk cache. The presentation will describe the tools and how they've helped NCAR.

Presenter: ANDERSON, William (National Center for Atmospheric Research)

Session Classification: Site reports
