

# 8th International Conference on Quarks and Nuclear Physics (QNP2018)

## Wednesday, 14 November 2018

14A1 Parton Structure - Room 201A (13:30 - 15:20)

time	[id] title	presenter
13:30	[64] Interpretation of transverse momentum and rapidity dependence on angular distributions of Z-boson production at LHC	CHANG, Wen-Chen
14:00	[65] Single hadron multiplicities in SIDIS at COMPASS	BEDFER, Yann
14:20	[66] TSAs in the Drell-Yan process from COMPAS	QUARESMA, Marcia
14:40	[67] Measurement of light-antiquark flavor asymmetry by Drell-Yan experiment SeaQuest at Fermilab	NAGAI, Kei
15:00	[68] Measurement of proton induced Drell-Yan with the polarized nucleon targets at Fermilab-E1039	MIYACHI, Yoshiyuki
