

# 8th International Conference on Quarks and Nuclear Physics (QNP2018)

## Friday, 16 November 2018

16D4 Hot and Cold Dense Matter - Room 201B (15:50 - 17:30)

time	[id] title	presenter
15:50	[159] Chiral symmetry breaking by monopole condensation	IWAZAKI, Aiichi
16:10	[160] Quark-hadron continuity under rotation: vortex continuity or boojum?	CHATTERJEE, Chandrasekhar
16:30	[161] In-medium nucleon weak and electromagnetic form factors effects on neutrino interaction in dense matter	HUTAURUK, Parada
16:50	[162] In-medium properties of the low-lying strange, charm, and bottom baryons in the quark-meson coupling model	TSUSHIMA, Kazuo
17:10	[163] $\chi$ and $J/\psi$ mesons in cold nuclear matter	COBOS-MARTÍNEZ, J Javier
