

# 8th International Conference on Quarks and Nuclear Physics (QNP2018)

## Friday, 16 November 2018

16C2 Hadron Interaction and Nuclear Structure - Room 404 (15:50 - 17:30)

time	[id] title	presenter
15:50	[136] Tribaryon configurations and three nucleon repulsions at short distance	PARK, Aaron
16:10	[137] Three-baryon forces in a quark model	NAKAMOTO, Choki
16:30	[138] Study the nucleon-nucleon force with short range correlation measurements	KOROVER, Igor
16:50	[139] Short-range and tensor correlations in light nuclei studied with antisymmetrized molecular dynamics	MYO, Takayuki
17:10	[140] Spin studies of the short-range correlations with polarized beams at JINR-Nuclotron	LADYGIN, Vladimir
