

8th International Conference on Quarks and Nuclear Physics (QNP2018)

Tuesday, 13 November 2018

13B1 Hadron Spectroscopy (Light Meson) - Room 402 (13:30 - 16:00)

time	[id] title	presenter
13:30	[14] Recent results on light hadron spectroscopy from BESIII	SHEN, Xiaoyan
14:00	[15] Electromagnetic transition form factors of light mesons	SCHADMAND, Susan
14:20	[16] Recent results from GlueX and future	ZARLING, Jonathan
14:40	[17] Analysis of the b_1 meson decay in local tensor bilinear representation	JEONG, Kie Sang
15:00	[18] Resonance effects in bound states interaction kernels	MIRAMONTES LOPEZ, Angel Salvador
15:20	[19] Light meson masses using AdS/QCD modified soft wall model	MARTIN CONTRERAS, Miguel Angel
15:40	[87] The spectra and decay widths of hybrid quarkonia in a hyperspherical-coordinate framework	MIYAMOTO, Tomokazu
