

8th International Conference on Quarks and Nuclear Physics (QNP2018)

Wednesday, 14 November 2018

14B1 Hadron Spectroscopy (Light Baryon) - Room 402 (13:30 - 15:10)

time	[id] title	presenter
13:30	[74] Non-strange dibaryon resonances observed in coherent double neutral-pion	ISHIKAWA, Takatsugu
14:00	[75] Structure and width of the $d^*(2380)$ dibaryon	GAL, Avraham
14:30	[76] On the $d^*(2380)$ dibaryon resonance	DONG, Yubing
14:50	[77] Measurement of the double polarization observable E for single π^0 photo-production from quasi-free nucleons	CIVIDINI, Federico
