

8th International Conference on Quarks and Nuclear Physics (QNP2018)

Friday, 16 November 2018

16D1 Hot and Cold Dense Matter - Room 201A (13:30 - 15:30)

time	[id] title	presenter
13:30	[141] Hydrodynamic collectivity and bulk properties of QCD matter in high-energy heavy-ion collisions	NONAKA, Chiho
13:50	[142] Dynamically integrated transport approach for high-energy nuclear collisions at high baryon density	MURASE, Koichi
14:10	[143] Charmed hadron production in heavy ion collisions	CHO, Sungtae
14:30	[144] Electroweak boson production measurements in p-Pb and Pb-Pb collisions at $\sqrt{s_{NN}} = 5.02$ TeV with ALICE	STOCCO, Diego
14:50	[145] Strangeness production in jets and the underlying event in pp, p-Pb and Pb-Pb collisions measured with ALICE	CUI, Pengyao
15:10	[146] Quarkonia production in pp, p-Pb, and Pb-Pb collisions	HAYASHI, ShinIchi
