

8th International Conference on Quarks and Nuclear Physics (QNP2018)

Wednesday, 14 November 2018

14D1 Hot and Cold Dense Matter (13:30 - 15:00)

time	[id] title	presenter
13:30	[100] Cumulants of net-particle distributions from the STAR experiment	NONAKA, Toshihiro
14:00	[101] Propagation of QCD color through strongly interacting systems	BROOKS, William
14:20	[102] Importance of the volume fluctuation correction on higher order cumulants	SUGIURA, Tetsuro
14:40	[104] Holographic bottom - up approach to Hadron properties in nuclear medium	VEGA, Alfredo
